

# PLUS!

## INTERIOR TREATMENT

The exclusive Beam Interior Luxury Pack is as good as you can get, blocking most of the sun's harmful ultra violet rays. It virtually guarantees the end of all permanent water, dirt and oil stains.

Our Fabric Protection permeates and coats every fibre with a colourless durable anti-stick, anti-dirt barrier. Our Vinyl and Leather protection penetrates deep to maintain suppleness, Colour and that "As New" feel.

## WINDOW TINTING

Here at Beam we exclusively use and recommend MEP Films by LLumar, which are engineered to enhance your vehicle's appearance, provide the performance you demand, and protect your investment.

MEP Films' reputation is known for the quality, colour stability, and patented scratch-resistant coating, plus they're durable and virtually maintenance free.

# PRODUCTS & SERVICES

Beam offers a complete array of car-care products and services to **renew, protect, enhance** and **maintain** vehicle appearance and resale value.

Beam is a one-stop-shop for consumers who want to help their cars and trucks survive the daily wear and environmental elements that can significantly impact a vehicle's investment value, as well as its driving pleasure.

Now with over 80 years experience servicing Western Australian vehicle owners, Beam has diversified its product and service offerings to include the full range of car care solutions.

**PROTECT YOUR NEW INVESTMENT!**  
FROM PAINT FADING, RUST, BIRD POO AND OTHER ENVIRONMENTAL DAMAGE WITH **BEAM CAR CARE.**

≡ **WE OFFER THE FOLLOWING SERVICES** ≡

## RUST PROOFING

With over 80 years experience, Beam understands the importance of corrosion protection of vehicles and mobile assets operating in the mining and resource sector.

Beam is Western Australia's oldest and most trusted specialist Rustproofing business and we are dedicated to developing new, leading-edge Rust proofing processes to break new ground and reach new levels in the field of corrosion control.

## ELECTRONIC ANTI-RUST

Electronic rust proofing will compliment any other undercoating or spray-on type rust proofing, increasing your protection, as rust protection electronic can only improve your rust defense.

## PAINT PROTECTION

The **Ultratect** Premium Paint Protection System uses state-of-the-art reactive polymer technology to seal and protect your vehicles paint finish.

**Ultratect** is our Premium technology for automotive paint finishes that never dulls and never needs waxing. **Ultratect** chemically adheres to your vehicles paint finish to act as a permanent shield. The **Ultratect** Paint Protection System is designed to benefit both new and pre-owned vehicle paint finishes.

## SPRAY-ON LINERS

Thousands of customers around the world have been using Rhino Linings premium protection applications.

Realising the advantages of Rhino's specialised formulations, practical experience and knowledge, backed by exceptional customer service, all the elements necessary to create the worlds most recognised and superior sprayed-on lining.
